

To Whom It May Concern:

A wedding is such an important moment in a couple's lives and all the people who love them want it to be "perfect". I know for I am the Mother of a lovely bride who was recently married. As a Mom we always dream about wedding shopping with our daughters for the perfect dress, flowers, cake, etc. However, with our society we often find that we are not even in the same state as our daughters. What is a Mother to do? In order to have the day go perfectly we had to rely on the expertise of a professional. Weddings of Romance provided the professional knowledge, the contact negotiations, and the entire event planning which included the Rehearsal Dinner, Bridesmaids Luncheon, Groomsmen Lunch, and day after the Wedding Brunch with expertise and unparalleled professionalism. They negotiated on our behalf with the hotel and we were very pleased with the results.

As the Mother, I could relax and enjoy my daughter's special day. I do not know how all this would have been accomplished without the calm organization of Weddings of Romance. I would recommend them to any parent and especially parents who are trying to help from another state. It is really difficult when you are hundreds of miles away and want to plan a lovely wedding with your daughter. Most importantly my daughter and her groom were very please with their services. It took a lot of weight off their chest and they were able to truly enjoy the day.

Put all you worries in a professional's hand and then enjoy! I did and have wonderful memories of my daughter and son-in-law's perfect wedding !

Sincerely,
Cynthia Johnson
